

## TECHNOVISION DV01 SETUP SCREEN

The DV01 is a multifunction digital media player that is capable of playing MPEG2, MPEG4, MP3 and JPG files. The player default (\*) settings are the ones that are most often used, but you are capable of changing some of the functions within the player. To access all the choices on the SETUP menu, stop the player and then press the SETUP button on the remote.

**The STANDARD OUTPUT IS VGA - press PC/AV on the remote to change the output to VIDEO.**
