

# Documentation for TecIR program

## HD01REM version 1.2

### Hardware Requirements

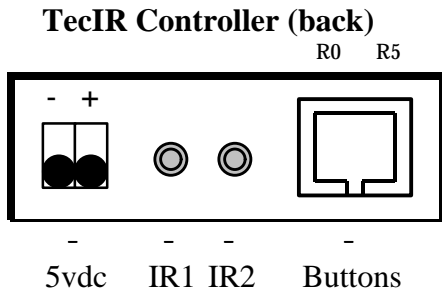

---

- TecIR Controller with HD01REM firmware chip and power adapter.
- IRR1 (or IRR2) infrared transmitter.
- Optional button cable or terminal adapter.

### Program Description

---

Upon a contact closure between R0 and any of the other pins on the 6P6C modular connector on the TecIR, the unit will transmit various IR codes (see table below) to a Technovision HD01 player.

### Button wiring on Optional TECIRB5 cable

---

RJ12#	TECIR Port	Colour	Button#	IR Function(s)
1	R0	WHITE	-	
2	R1	BLACK	5	VOL UP
3	R2	RED	4	VOL DOWN
4	R3	GREEN	3	PAUSE/PLAY
5	R4	YELLOW	2	NEXT
6	R5	BLUE	1	<b>PREV</b>

Version 1.1 was only for the original HD01 player  
Version 1.2 works with both version 1 and version 2 players.
