Operation

The TV-66KP allows for button access to tracks on various digital players with the track pausing after the track search.

- Make sure the TV-66K is not installed against a conductive surface.
- Make sure the power to the player is OFF before attaching the TV-66K.
- Attach all optional buttons to the TV-66K (see instructions below)
- Attach the supplied cable to the player and connector TS1 on the TV-66K controller.

Dipswitch Settings

1 ON = DV66 STARTUP delay (default).
1 OFF = NO DV66 STARTUP delay.
2 ON = Same input is locked out (default)
2 OFF = Same input can be chosen again after 3 seconds.
